

oil center research

Our Company was founded in 1958, beginning with the dream of two individuals and only one product to sell. This dream has grown into a manufacturing company with approximately 1,000 products used by all types of industries worldwide. Since its inception, the growth of the Company is the direct result of our commitment to manufacture quality products.

From the first product, Hydrogel, to the development of an entire line of products marketed under the *Liquid-O-Ring*® tradename, the Company became recognized worldwide for the quality of its products. Since 1958, the Company has expanded to include thread sealants, wireline and wire rope products, coatings, pump and valve packings, sealants for oil wells, and hydraulic oil additives to meet the demands of today's industries. As the demand continued to grow, more products were added to meet the needs of the customers, including a line of soaps, detergents, and related products for the janitorial, car wash, and concrete industries.

Besides our commitment to manufacture quality products and adaptability to customer/industry needs, other contributing factors to the Company's success are its strategic warehouse locations, network of distributors located nationally and internationally, commitment to excellent customer service, and product reliability providing the utmost customer satisfaction.

"To operate safely while making quality products at the lowest cost and to deliver to our customers on time."
