MARINE CABLE COAT

Biodegradable

- GEAR OILS
- MOTOR OILS
- HYDRAULIC OILS
- PIPE COATINGS
- THREAD SEALANTS
- BEARING GREASES
- SPECIALTY GREASES
- THREAD COMPOUNDS
- SUCKER ROD COATINGS
- OUTSIDE PRESERVATIVES
- WIRELINE GREASE SEALS
- CLEANERS & DEGREASERS
- PIPE STORAGE COMPOUNDS
- RUST & CORROSION INHIBITORS
- THREAD LOCKING COMPOUNDS
- VALVE LUBRICANTS & SEALANTS
- TOOL JOINT & DRILL COLLAR COMPOUNDS

PRODUCT DESCRIPTION

783 Marine Cable Coat is a biodegradable, non-contaminating, environmentally acceptable wireline spray. 783 Marine Cable Coat may be used on wire rope and cable for protection against corrosion.

783 Marine Cable Coat is formulated to protect cables from the effects of salt and corrosive chemicals. It will protect the complete braided cable against corrosion caused by acids, caustics, and most chemicals including hydrogen sulfide and salt water. 783 Marine Cable Coat contains special wetting ingredients which enable it to penetrate the surface down to the inner core of the cable.

783 Marine Cable Coat also provides lubrication to the cable, thus reducing most wear caused by continuous use. 783 Marine Cable Coat is designed to be sprayed on, brushed on, or soaked in a continuous-feed vat tank as it is rolled up on the spool.

BENEFITS

- Biodegradable
- Environmentally acceptable
- Non-contaminating
- Increases cable life
- Penetrates cable to its inner core
- Protects against corrosion
- Prevents salt water corrosion

APPLICATION

783 Marine Cable Coat is recommended for cables, wire rope, and braided wireline.

TYPICAL OBSERVATIONS

Color	Amber
Odor	Mild, fatty
Density, lb/gal @ 77°F (25°C)	7.69
Specific Gravity @ 77°F (25°C)	0.922
Flash Point, ASTM D-93	>500°F (>260°C)
Viscosity, ASTM D-1200	
#4 Ford cup @ 77°F (25°F)	22 sec
Evaporation loss	
ASTM D-971 @ 210°F (99°C)	0.43
Pour Point, ASTM D-97	-15°F (-26°C)
Rust Prevention,	
ASTM D-3603 @ 140°F (60°C)	Pass
Solubility in Water	Insoluble
Shelf Life (unopened container)	Four years
