## 922

### BLACK EXTERNAL PIPE COATING

#### PRODUCT DESCRIPTION

Protekto-Coat® 922 is a black, asphalt-based external coating formulated to provide an excellent long-term protective coating to external tubular surfaces while the pipe is in storage. Protekto-Coat® 922 provides economical protection against rust and corrosion. Recommended for tubing, casing, drill collars, and line pipe, Protekto-Coat® 922 dries to a tough, durable film that seals the surface from air, moisture, and the elements.

Protekto-Coat® 922 applications include drill pipe, wash pipe, pump columns, work strings or other applications where medium term protection is required.
